

Please stop this further consolidation of media under fewer owners! This is essential to democracy and that is why you are hearing from hundreds of thousands, in fact MILLIONS, of Americans from such an unprecedentedly wide spectrum of political opinion! Please hear us! My comments for example, represent the views of at least twenty two business associates you may never hear from, who do however, share this view, as well as the family members, journalist friend, and political activists I know. For every signature you get, there are at least ten in the background you do not directly hear from.
